

A MESSAGE FROM THE PRESIDENT

It is a great pleasure for me to welcome you to Nagoya City University. Here let me briefly introduce you to our University.

Starting April 1st this year, Nagoya City University has taken an important step of becoming a Public University Corporation. The aim of incorporating the University is to develop high level education, research, medical treatment and other activities to attain further fruitful results by managing the University effectively based on self responsibility. Japan is aiming at building Science Technology Creating Nation. There, it is very important for University, the source of intellectual creation, to brighten in her activities.

On this occasion of incorporation, we will drastically reform conventional system or structure on all areas such as education, research, social contribution, management, administration, and financial affairs etc. By utilizing our distinguished characteristics, the only one Japanese public university having three health related academic schools: Medical, Pharmaceutical Sciences, and Nursing, we will build a university which will contribute for improving health and welfare of the citizens especially in the fields of medical treatments, drug design, health for elderly, bringing up next generation, medical economics, promotion of universal design etc.

Today at this 21st century, the global warming is at critical situation. To protect and maintain this beautiful planet, we have to face with the task for "Preservation of Earth Environment" from every aspect. NCU will utilize long-term built up intellectual resources for making sustainable society and engage in the activities such as education, research contribution to society, management of university etc and aim for "The University challenging environment problems and contribute to the society"

NCU is supported by Nagoya City. We will aim to widely return our profit to citizens. Make the University open to the citizens which act as an Agora, Intellectual Square of the citizens, by the citizens, for the citizens.

We hope for your cordial collaboration with us.

A handwritten signature in black ink, which appears to read "Hitoo Nishino". The signature is fluid and cursive, written on a white background.

Hitoo Nishino, M.D.
President
Public University Corporation Nagoya City University
