

Supplement to the Applicant Guidelines for the MA Program  
in the Academic Year 2021

Graduate School of Economics  
Nagoya City University

Applicants should read not only the applicant guidelines in AY 2021 for the MA program itself but also this supplement on the applicant guidelines.

1. Divisions and fields in the Graduate School

The Economics Division consists of the Economic Theory Field, Economic Policy I Field, Economic Policy II Field, and Institutional Economic and Economic History Field. The Economic Theory Field focuses on theoretical and empirical analysis of economics, the Economic Policy I Field focuses on the analysis of fiscal and monetary theory and policy, the Economic Policy II Field focuses on international economics and industrial economics, and the Institutional Economic and Economic History Field focuses on economic regimes and economic history.

See Table 1 for the courses provided by each field.

2. Your choice of field

You have to choose the field you will belong to, based on your research interests and agenda. Especially, you should be aware of your expected needs when writing your thesis. Table 1 shows our courses and faculty; you should look over the table when you choose your field. Note that some faculty members may change fields without advance announcement. You should clarify the order of your preference for fields up to two.

3. Research proposal

Use the designated form to present your research proposal. You can attach a typed sheet of paper to the form. It should be 400 to 500 words in length.

Table 1 Faculty Members and Courses in AY 2021<sup>1</sup>  
Economics Division

Field	Faculty Member	Research Fields	Subject/ Course
